

## Make a child into a pizza recipe here:

- Put “pizza dough” on a flat surface
- Knead the pizza dough
- Stretch pizza dough this way and that way (arms and legs)
- If safe, toss your pizza dough in the air (we usually skip this step!)
- Next apply oil generously (water)
- Gently rub flour into your pizza dough (powder)
- Next add some tomatoes (the book uses checkers, we use red paper)
- Add grated cheese (paper cut up like cheese)
- Put your pizza into the oven. (The book uses a couch, we just pretend to put in oven)
- Time your pizza in the oven, you don’t want it to burn
- Take your pizza out, watch out it is HOT! You might want to blow on it
- Now it is time to slice your pizza!! Don’t let it run away, it is way to delicious!
